## DOMINION ORDERS IN COUNCIL.

[1883.]

AT THE GOVERNMENT HOUSE AT  
OTTAWA.

Thursday, the 9th day of September, 1909.

PRESENT:

HIS EXCELLENCY THE DEPUTY GOVERNOR-GENERAL IN COUNCIL.

ON a Memorandum dated 31st August, 1909, from the Minister of the Interior, referring to the Order in Council of 19th June, 1902, under authority of which order there was sold to the Vancouver Power Company, Limited, two certain parcels of land, one on the west shore of Coquitlam Lake, in British Columbia, for a site for a tunnel portal comprising an area of sixty-six acres and patented to the said Company by patent dated 14th April, 1904, and the other for a site for dam and other works on the Coquitlam River, near the southern end of the said Coquitlam Lake, comprising an area of forty-four acres and patented to the said Company by patent dated 16th November, 1906. Both these parcels were patented to the Company under the authority of the said Order in Council conditional on the Company undertaking to use the said land for no other purpose.

The Minister states that the said Vancouver Power Company, Ltd., has addressed to him a communication dated 23rd August, 1909, copy of which communication is hereto attached marked "A," in which the Company solicits approval of the proposed further development of its hydraulic undertaking at Coquitlam Lake.

The Company points out that with its allied Companies there has been spent to date in developing the various systems about \$18,000,000, and that they have work now in hand which bring the total capital investment up to \$26,000,000 within two years. The works include railway and electric light and power works for the cities of Vancouver, New Westminster, and for that portion of the Fraser River Valley stretching about seventy-five miles east of the City of New Westminster.

The Company applies to purchase certain lands being an area of 75.12 acres adjoining to the south the area previously patented to it and as described in schedule marked "B" herewith, all for the purpose of erecting thereon a hydraulic earth and rock filled dam, 85 feet high and by means of which the waters of Coquitlam Lake will be raised 60 feet above present level, all according to plans and specifications, copies of which have been filed in the Department of the Interior.

The Company also applies to purchase certain lands being an area of approximately 3,956 acres of land around Coquitlam Lake and as also described in schedule marked "B" herewith. Some portions of these lands will be flooded by the erection of the proposed dam, but inasmuch as no plan of survey has yet been made to accurately show the lands so to be flooded the Company states that the lands applied for are described by legal subdivisions and so as to include all the lands to be flooded, but the Company prefers to purchase only the flooded lands. Both in regard to the land applied for the site of the dam and the lands applied for flooding purposes the Company agree that if its application is granted the lands shall be used only for the purposes of its water-power development.

The Company also desires approval so far as the Department of the Interior is concerned of its plans for the erection of the dam and other works.

Before these lands are sold and before such approval is given certain interests require consideration.

1. The water supply of the City of New Westminster.—The measures intended to be taken to protect this water supply are fully set out in Minute of Council, dated 9th September, 1909, and upon the Company entering into the agreement therein and hereinafter referred to and furnishing satisfactory to the Minister the bond also therein referred to, it is the opinion of the Minister that the said water supply is fully and sufficiently protected.

2. The interests of timber lessees in logging in the Coquitlam River.—The Company's application of which a copy is herewith attached marked "A," agrees that it shall release such water for the purpose of driving logs in the Coquitlam River, and for agricultural and domestic purposes, within the drainage basin of the said Coquitlam River below the dam, as the Minister of the Interior may from time to time direct. The Minister is of opinion that the insertion of a provision in the proposed agreement giving him such power sufficiently safeguards the said logging interests.

3. The passage of logs cut from area surrounding Coquitlam Lake over the proposed dam.—Provision is required for this purpose and in the opinion of the Minister should be inserted in the agreement.

4. The requirements of water for agricultural and domestic purposes within the drainage basin of the Coquitlam River below the proposed dam.

These requirements will, in the opinion of the Minister, be sufficiently safeguarded in the provision hereinbefore referred to under clause 2.

5. The navigation of the Coquitlam River.—The report of the Engineer of the Department of the Interior shows that the navigability of this river, so far as the same is of any importance, will not be affected by the proposed works.

6. The question of possible injury to fishing interests.—The Minister is advised that salmon have in the past ascended this river in large numbers to spawn in the lake, but that they afterwards die and consequently prove detrimental to the waters as a source of domestic supply. The Minister is of the opinion that no provision for the passage of fish is necessary in the new works, and that such provision may be dispensed with, subject to the approval of the proper officers of the Marine and Fisheries Department.

7. The safety of the proposed dam.—A careful examination of the site of the proposed dam and an examination of the plans and specifications has been made jointly by Messrs. George A. Keefer, Resident Engineer of the Public Works Department, under instructions of that Department, and Mr. J. B. Challies, C. E., of the Department of the Interior. A joint report signed by Messrs. Keefer and Challies has been filed in the Department of the Interior, dated 24th August, 1909, and in this report they state that the dam has been designed with every reasonable safeguard against failure. They also state that Mr. Schuyler, the consulting engineer, is a man of world-wide prominence and of very great experience especially in this class of dam construction. Mr. Binckley, the chief hydraulic engineer, is stated by them to be a man of wide practical experience in hydraulic filled dam construction. They further point out that the Company is financially able to carry out the construction to the entire satisfaction of Mr. Schuyler and Mr. Binckley. The report of Messrs. Keefer and Challies having been examined by the Acting Chief Engineer of the Public Works Department, said Acting Chief Engineer has certified as follows:—

"I have examined the plans of the dam proposed to be built on the Coquitlam River, B. C., by the Vancouver Power Co., and I fully concur in the report of Messrs. Challies and Keefer in so far as it concerns the stability and mode of construction of the proposed structure."

The Minister of the Interior points out that in the application of the Company hereto annexed and marked "A" the Company agrees:—

(a.) That in the erection of the dam the Company shall faithfully adhere to the plans as finally approved by the Minister of the Interior, subject to such modification as may be found necessary, and shall be approved by the Minister.

(b.) That the Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) That weekly reports of progress during construction shall be submitted to the Minister of the Interior.

(d.) That the Minister shall have the right to place an Inspector on the work for the purpose of seeing that the dam and other works are carried

out in accordance with the approved plans and the proposed agreement, the salary of such Inspector to be paid by said Company.

(e.) That the Company shall after the completion of the dam maintain and operate the same to the satisfaction of the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by him.

(f.) That the Company shall furnish and keep in force security approved by the Minister for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dam, or by any breaking of or other injury to said dam after its construction, and the said security shall also be held to cover any ascertained damages to lands on Coquitlam River by reason of the normal flow or water being diverted from said stream.

In view of the expert opinions given as to the plans and specifications for the proposed dam and the provisions above set out for properly carrying out the said plans and specifications, and the provision for security for the payment by the Company of all damage that may be occasioned by its construction or operation, the Minister is of the opinion that every reasonable precaution has been provided for the safety of the dam.

The Minister, therefore, recommends that, subject to the said Vancouver Power Company having first entered into an agreement with the Minister as representing the Government of Canada embodying the conditions set out in clauses 1, 2, 3, 5, 6 and 7, and having filed with the Minister a satisfactory bond to keep and maintain the purity of the water supply in Coquitlam Lake and River at and above the intake pipe for the City of New Westminster, he be authorised, upon payment by the Company into the Department of the Interior, of the required amount at the rate of \$10 per acre, to issue patent in the name of the said Company for the lands required for the site of the dam as set out in schedule "B" annexed hereto, and upon the Company filing in the Department of Interior a plan of survey approved by the Surveyor-General of the Department showing the portions of the lands, also set out in schedule marked "B" annexed hereto, which will be flooded, he be also authorised to issue a lease in the name of the Company, providing for an annual rental payable each year in advance at the rate of 25 cents per acre, but both the patent and the lease to contain a proviso that the lands shall not be used for any other purpose than for and in connection with the water-power development by the Company.

The Minister further recommends that approval be given of the plans of the dam and works of the proposed further development of the Company's hydraulic undertaking at Coquitlam Lake in order that the Company may proceed with construction, but on the express understanding that nothing herein contained shall be held to warrant the said Vancouver Power Company in claiming the granting by this Government of rights in the waters of Coquitlam Lake and River, additional to those granted by Order in Council, dated 15th April, 1902, except under Regulations which shall be similar to those now in force governing the administration of water-power in connection with the Dominion Lands in Manitoba, Saskatchewan and Alberta, and in the issuing of a licence for the use of water to the said Company, such licence shall conform to clauses 1, 2, 3, 5, 6, 7, 8 and 10 of the said Regulations.

The Committee submit the same for approval.

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C.,  
August 23rd, 1909.

*Re Coquitlam Dam.*

SIR,—I have the honour, on behalf of the Vancouver Power Company, to respectfully solicit your approval of the proposed further development of our hydraulic undertaking at Coquitlam Lake.

The plans of the dam have already been handed you. These provide for the erection of a hydraulic earth and rock filled dam of a sufficient height to raise the water level of the lake about 60 feet. The dam has been designed in such proportions and of such material and workmanship as to render the structure secure and lasting as human skill is able to provide for. The plans provide for the pipes, intake works, screen chambers, etc., in connection with the water system of the City of New Westminster, as designed by the City's hydraulic engineer, and give a capacity twenty-one times greater than the present pipe, which appears an ample provision for future growth of demand.

The further development of our undertaking as indicated is necessary to provide additional electric power for the operation of our railway extension, and the growing demand for electric light and power for domestic and industrial purposes in and around the cities of Vancouver and New Westminster, and that portion of the Fraser Valley stretching about 75 miles east of the City of New Westminster.

Our allied companies have expended about \$18,000,000 to date in developing our various systems, and we have work now in hand which will bring our total capital investment up to \$26,000,000 within two years. At the present time we have over 100 miles of electric railway under construction, including a line of 65 miles in length from the City of New Westminster through the southerly portion of the Fraser Valley to Chilliwack. We believe our various undertakings have assisted materially in the upbuilding and developing of the districts in which we operate, and can therefore confidently look to you for encouragement and assistance in the carrying out of the further objects we have in view.

I beg to say that in the event of your approving our application herein, the Company is prepared to accept the following special conditions, together with such other orders as you may consider necessary in the premises.

1. In the erection of the dam the Company shall faithfully adhere to the plans as finally approved by the Honourable the Minister of the Interior, subject to such modifications as may be found necessary from time to time during the progress of the work, which modifications, however, shall be submitted to the Minister for his approval.

2. If required, the Company shall submit to the Department of the Interior detailed plans of any portion of the work, as they are developed.

3. During the construction of the dam the Company shall submit weekly reports of progress to the Honourable Minister of the Interior, who shall have the right to place an Inspector on the work for the purpose of seeing that the dam and other works are carried out in accordance with the approved plans and arrangements, the salary of such Inspector to be paid by the said Company.

4. The Company shall, after the completion of the dam, maintain and operate the same to the satisfaction of the Hon. the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected from time to time by an officer appointed by the said Minister.

5. That before the work of construction begins the Company shall satisfy the Hon. the Minister of the Interior of its financial ability to carry out and maintain said work, and shall furnish and keep in force security approved by the Hon. the Minister of the Interior for the payment of all damage that may at any time be occasioned by the construction or operation of the dam, or by any breaking of or other injury to said dam after its construction, and the said security shall also be held to cover any ascertained damages to lands on Coquitlam River by reason of the normal flow of the water being diverted from said stream.

6. That if at any time during the construction of the said dam and the carrying out of the various works in connection therewith, the Company should decide to abandon such construction, the Company shall leave the work so far as it may have proceeded in such condition as the Hon. the Minister of the Interior may require.

7. That the Company shall place in the said dam a pipe for the supply of water to the City of New Westminster of such size, not to exceed four feet in diameter, as the City Engineer of the City of New Westminster may specify, and of such materials as may be acceptable to the said City Engineer.

8. That the plans of the intake tower and screen, intake gates, etc., for the New Westminster City water supply as submitted to and approved by the Municipal Council of the said City shall be faithfully carried out by the Company to the satisfaction of the City Engineer of the said City, and at the expense of the Company.

9. That the water supply of the City of New Westminster shall be furnished at the same pressure it now receives, or at the option of the City at as much as the head of water in the lake will afford.

10. That the Company shall remove, without reducing the present net hydraulic head, the vegetable growth and objectionable micro-organisms, and all impurities, colour, odour and taste that may be inflicted on the water supply of the City of New Westminster as a result of the construction and operation of the dam.

11. That the Company shall immediately remove all shacks, dwellings and buildings of every description located up-stream from the centre line of the proposed dam, except those necessary at the tunnel entrance; provided, however, that the saw-mill erected on the west side of Coquitlam River shall be permitted to remain until the completion of the work, when it shall be forthwith removed.

12. That the Company shall abide by, conform to and enforce upon their lands all reasonable and necessary sanitary rules and regulations which may be promulgated by the City of New Westminster, subject to an appeal to the Hon. the Minister of the Interior as to the reasonableness of or necessity for any such rule or regulation.

13. That the Company shall release such water for the purpose of driving logs in the Coquitlam River, and for agricultural and domestic purposes, within the drainage basin of the Coquitlam River, below the dam, as the Hon. the Minister of the Interior may from time to time direct.

14. That the Company shall pay to the Crown such sum per acre as the Hon. the Minister of the Interior may direct for all lands which may be flooded by raising the level of Coquitlam Lake, as well as for such additional lands as may be required for the site of the proposed dam.

15. That the Company shall pay to the Crown such sum per 1,000 feet as the Hon. the Minister of the Interior may direct for all merchantable timber on the flooded area, as well as for such additional timber which the Company may be permitted to remove from other lands of the Crown.

16. It is understood and agreed by the Company that the violation by the Company of any of the above requirements or such other condition or requirement as may be imposed by the Honourable the Minister of the Interior, may result in the revocation of the permission to build and operate the dam.

In order to carry out the works as designed, the Company respectfully solicits your official action in the following matters:—

(a.) Approval of the undertaking and plans.

(b.) Permission to purchase such additional lands adjoining and lying to the south of the Company's present property as may be required for the Company's undertaking, including that portion of the river bed covered by the dam and necessary to its maintenance.

(c.) Permission to cut and remove from Dominion lands for construction purposes a quantity of timber not exceeding 750,000 feet, board measure.

(d.) Quit-claims of the rights of the Crown in 10,000 miner's inches of water and authority to divert same into Lake Buntzen.

I have the honour to be, Sir,

Your obedient servant,

(Sgd.) F. R. GLOVER,

Asst. Gen. Mgr.

HON. FRANK OLIVER,

Minister of the Interior,  
Ottawa.

##### PRIVATE BILLS.

##### EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

##### RULE 59.

**ALL APPLICATIONS** for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work: the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and

signed by or on behalf of the applicants, such notice to be published as follows:—

In the *BRITISH COLUMBIA GAZETTE*, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House, to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published*. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¾ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first

reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901, (*see Journals*, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

Under a new rule, see *Journals* 7th March, 1908, in the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in rule 57, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

## TEMPORARY LOAN BY-LAW, 1910.

A By-law to enable the Corporation of the City of New Westminster to borrow the sum of \$107,828.90, in anticipation of its revenue for the year ending 1910.

**W**HEREAS it is necessary to borrow a sum of money not exceeding the sum of \$107,828.90, to meet the legal current expenditure of the Corporation which becomes payable out of the annual revenue before the revenue for the year becomes payable by the taxpayers;

And whereas the total amount of taxes upon land or real property, as shown by the revised assessment roll of the municipality for the year 1909, was the sum of \$129,394.69:

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the said Corporation, by the Mayor and Finance Committee of the Council thereof, to borrow from any person or persons, firm or firms, corporation or corporations, who may be willing to advance the same, the sum of \$107,828.90, in such amounts and at such times, but subject as hereinafter provided, as the same may, in the opinion of Mayor and Finance Committee, be required to meet the said legal current expenditure, and the money so borrowed shall bear interest at a rate not exceeding five per centum per annum.

2. The moneys so borrowed shall be expended in payment of the legal current expenditure of the said Corporation for the year 1910, and shall, together with the interest thereon, be a liability payable out of the municipal revenue for the year 1910, and shall be repayable to the lender or lenders thereof on or before the 31st day of December, 1910, out of the said revenue.

3. The form of the obligation to be given as an acknowledgment of the said liability shall be a promissory note; and a promissory note or promissory notes for the moneys authorised by this By-law to be borrowed shall be given to the lender or lenders thereof for the advance or advances made as the same may be required, and such note or notes shall be signed by the Mayor and the said Finance Committee and the Clerk of the Corporation, and shall bear the Corporate seal, and shall be so drawn as to be payable on or before the 31st day of December, 1910, and on the back of such note or notes it shall be stated that the liability incurred thereby is a liability payable out of the municipal revenue for the year 1910.

4. This By-law may be cited as the "Temporary Loan By-law, 1910."

Done and passed in Open Council the 24th day of January, A.D. 1910.
